climbers and steel buckle
with laser printing.

Manufactured in e.u.
(almost the 90% of the
products are
manufactured in
Barcelona spain)

The line of high
toughness, gives you
a great fabric abrasion
resistance and
durability.
Cordura similar to but
not under the
umbrella dupont,
this textile product,
guarantees an excellent
resistance and perfor-
mance.

The best zip for the best
products.

Why we are sustainable?
Because all our pro-
ducts, that are under this
seal, are made in barce-
lona. raw material much
like the final product.
This constitutes a minor
movement of goods
and following a minor
air pollution and more
sustainable product.

All our products pass through our
laboratory or test bench. boulder
test is a reflection of our struggle for
quality, which put to the test all our
products to take them to the limit.
How? our team of ambassadors and
ourselves tested, climbing and
mistreat
material to check the level of
strength,
flexibility and durability of our
products.
Material to check the level of
strength,
flexibility and durability of our
products.

Cordura is the brand name for a
collection of fabrics used in a wide
array of products including luggage,
backpacks, pants, military wear and
performance apparel. Cordura fabrics
are known for their durability and re-
sistance to abrasions, tears and scuffs.
Originally developed and registered
as a trademark by E.I. duPont deNe-
mours and Company (DuPont) in
1929, it is now the property of Invista
(a wholly owned subsidiary of Koch
Industries, Inc.).[1] Cordura fabrics
are made using yarns or fibers from
Invista. Fabrics can be made using
100% synthetic fiber or in blends with
cotton or other natural fibers.
Product hangtag to use the Cordura
brand name, each fabric should be
tested and approved by Invista.

Our team of designers/
climbers using the more
modern technique
of printing make our
dreams come true.

Water
resistant

The elastane
provides the stretch
in 2 ways of the
textile. It makes
the clothing more
comfortable and
adaptable for the
climbing activity.

Why we use organic cotton?

Did you know that 6% of crops in the world
are intended to cotton? did you know that
20% of pesticides in the world go to that 6%
of cotton? did you know that the organic cot-
ton never use pesticides?? that's the reason
why we use that!! ;)

The elastane in the 4
ways provides the textile
the best stretch for the
more extremely move-
ments.

Made for slacklining
